Creating Joy Sharing Love Giving Hope

A Note From Shelley Ham

Executive Director, Rooms of Hope

Every makeover is so different, and just as unique as the children we serve. Amauri was a beautiful soul whose life was cut too short. For those who loved him, utterly devastating. For those who had the privilege to meet him, blessed. For those who supported his family after he was no longer with us, a privilege and honor. I know you share in this sentiment.

To our Rooms of Hope Family...for whatever part you played in bringing Amauri's family hope and joy through the work we do, thank you so very, very much!

I know that this makeover was challenging, heart-wrenching, bittersweet and touched each of you profoundly. My hopes are that in time that feeling of being unsettled and deeply saddened will heal and you will only remember the goodness that you brought to Amauri's family during their darkest hours. We are about creating joy, sharing love and giving hope! You did just that!!!

*Thank you and with all my gratitude,
Shelley*

A Note From Jimena

Amauri's 17-year-old Sister

Thank you so much for everything. I know that if Amauri was still here with us he would have enjoyed everything, especially the pictures of his favorite soccer team Barcelona. He would always talk to us about how excited he was about the room makeover and he couldn't wait for it. But sadly he isn't here to see everything, but this makeover means a lot to us because it's a gift Amauri left us. It does hurt knowing he was excited for it and he's not here with us to enjoy it and it's difficult because he left all of this for us, but we are so grateful for this room makeover. This means a lot us so thank you so much for everything!
