

Creating Spaces That Matter...

Dear 2022 Community Supporters...

On Saturday, October 1st, Rooms of Hope will host our “Night at The Oscars” In-Person Gala, honoring our Rooms of Hope children, at the spectacular Blackhawk Museum in Danville, CA. More information about the event to follow. Proceeds from this 9th annual event allows Rooms of Hope to continue its mission of providing dream room makeovers for children with life-threatening illnesses such as cancer, heart disease, end-stage kidney disease and more.

Rooms of Hope creates a child’s dream space, which is away from all the medical tests and treatments they must endure at the hospital. And we know the entire family is affected, so we do mini-makeovers for the siblings, as well. Involving the community, and it does take a village, in helping us build dream rooms for these seriously ill children and their families is a core value of our organization.

Because of generous sponsors and donors such as yourself, during 2022, Rooms of Hope will benefit Bay Area families and provide 30+ dream spaces for seriously ill children and their siblings even as we recover from COVID. It is with your direct sponsorship and donations that our continued mission is possible.

Thank you in advance for your consideration of either a sponsorship or item/gift certificate donation which is tax-deductible. Our EIN is 47-5736906. Every contribution directly helps change the lives of families with children battling just to survive!

With gratitude,

Shelley Ham

ADDITIONAL INFORMATION ABOUT ROOMS OF HOPE

Creating Joy | Sharing Love | Giving Hope

Rooms of *hope*

Creating spaces that matter...
for children with life-threatening illnesses.

www.roomsofhope.org

Our mission is to provide dream room makeovers to children with life-threatening illnesses. Our purpose is to surround these children with love and co-create the space of their dreams, may it be their bedroom, playroom or other refuge from all the medical tests and treatments they must endure at the hospital. We are about bringing hope and joy to seriously ill children as they literally fight for their lives. These spaces are very personal and are built to represent the child's unique personality, filled with everything that is meaningful to our Rooms of Hope children. As put by one child who was given their dream bedroom, "My room is reflection of me and why I matter in this world. I love my bedroom!"

Rooms of Hope is a nonprofit organization that gives back a little bit of control to sick children who often lose their say in daily activities, including going to school or having playdates because of their depressed immune systems and need for medical attention. Usually, they can no longer participate in sports or other extracurricular activities. Daily routines go from being "normal" to now being all about hospital visits or being at home while the rest of world moves forward without them. But we bring something wonderful to look forward to and give each child their voice. This gift goes on well beyond their amazing reveal of their dream space. While home, this is their place of inspiration, healing and solace.

And...it certainly takes a village!!! Along with a Rooms of Hope Project Manager and Interior Designer, comes construction specialists including licensed contractors and electricians, as well as muralists, artisans, painters, seamstresses and dedicated volunteers with one focus: bringing hope and joy while creating spaces that matter!

We are completely funded by individuals, local companies, national corporations, community and faith organizations, and foundations.

Why is Rooms of Hope So Important?

Here's Why...

Our mission is to provide dream room makeovers for children battling life-threatening illnesses, wrapping our children and families in a blanket of love and showing them that they are not alone. During these uncertain times of COVID-19, like all companies, we've adjusted the way we support our children, especially because of their depressed immune systems. We now offer the choice of "in-home dream room makeover installations" or "drop-off dream room enhancements!" We can literally change the way a seriously ill child feels and sees their space at home while safe-distancing.

When a child is diagnosed with a life-threatening medical illness, their world changes forever. They go from being a child who is "healthy" to a child that is now fighting for their life. Their routine goes from being normal to a routine that is now filled with doctors' visits and treatments that never seem to end with lots of time at the hospital. If they aren't being treated or hospitalized, they are home usually without the ability to go to school or see their friends because of their depressed immune systems. Add in COVID-19 restrictions... well, the sad truth is that often times our children become depressed. And that's where we come in.

We are about creating joy, sharing love and giving hope while creating spaces that matter! We allow the child to dream again and have some control in a world where they have no control, with unknown outcomes.

The entire family is affected, so we provide mini-room-makeovers for siblings too.

And...it certainly takes a village!!! We are completely funded by individuals, local and national companies, community & faith organizations, and foundations. Best of all, there is never a cost to the family for our programs thanks to you.

So join us at the gala to raise funds for our Rooms of Hope children. Thank you for supporting us!
